## mission set-up

Cow (and others) now are now the proud owner of the first version of Broadcast Set-Up (any machine). To get going first make sure your Decimator™ is set up correctly (see the Decimator™ manual). Then, with your student, have simply put into a Broadcast Set-Up with power 1 (a CD-ROM 1, a CD-ROM 2, One Data, and One for Data Color).

### Broadcast hardware unit

Front View

Control Ports

Use these ports to connect the Broadcast™ Database to your peripheral equipment. From left to right are Control Port A, Control Port B, Control Port C, and Control Port D. Use each port to connect controllers for players 1 to 4 respectively. (NOTE: Control Port C can also be connected to a third

## controller

### PLEASE NOTE:

Always insert the Analog Thumb Pad or Triggers (A/B buttons) while turning the system on power OFF. Doing so may disrupt the controller initialization procedure and result in malfunctions. If the Analog Thumb Pad or Triggers (A/B buttons) are accidentally moved while turning the system on power OFF, immediately turn the power OFF and then disengage the trigger pad to touch the controller.

# special controls

## examine item

If you press the X button during game play, your character will check the object in front of himself. A message will appear to let you know what you found. If there is nothing there, no message appears. This control also opens doors and talks to other characters.

## run

Hold the A button, then press the D-Pad or Analog Thumb pad forward. Hold LEFT or RIGHT directions together with UP to run left or right. You cannot run backwards.

## use weapon

Hold the R Trigger to draw weapon, then use the LEFT and RIGHT directions to aim the weapon up or down. LEFT and RIGHT directions rotate weapon left or right. Press the X button to fire the weapon.

## change target

While playing Arrange Mode, the Auto-Aim feature is enabled. When the R Trigger button is pressed to aim the weapon, your character will automatically lock-on to the nearest enemy. While the R Trigger is held, you can also use the L Trigger button to select different targets.

## push item

Some items can be moved by pushing them. Place the item you want to move and press UP on the D-Pad or Analog Thumb Pad. If the object cannot be moved, your character will refuse to push it.

## reset game

To return to the Resident Evil™ 2 file being played here, press and hold A, B, X, Y, and START buttons simultaneously.

# a city crawling with confusion

It's just a normal mid-western U.S. town, built at the base of a vast forest. Business has evolved here, especially with the advent of several new industries. Heck, you can't find a more peaceful wilderness getaway than Raccoon City.

They're the trouble makers,

and it leads back to when the corporation arrived.

Business began to spread, and the town was overgrown with odd occurrences. Unexplainable creatures appeared out of nowhere, and fatal accidents happened in an alarming rate. When just overheard a truck accident at a mountain side, the cops in town knew what was happening to their quiet town.

The Raccoon Police Department, in an effort to calm the growing fear among locals, recruited several new officers. Leon S. Kennedy is one of the promising new recruits. As Leon prepares to join his new unit, he manages to contact the captain who lived here, but has no luck reaching him. Unfazed, he continues into Raccoon City to his new job.

At the other side of town, a distraught Claire Redfield searches for her missing brother, Chris. Claire begins her search in Raccoon City the last known location of her brother nearly two months ago, only to learn about the "accident" in the forest. Is Chris still in Raccoon City?

Both for Leon and Claire, they are completely unaware of the overwhelming world of horror and despair they both are about to encounter.

## starting a mission

If you want to play Cyberia, insert then load Disc 1 by placing CD-ROM 1 into the original CD-ROM drive and press the Disc Door Loading (Disc) button. Game's released.

Once the game begins, you may bypass the opening sequence by pressing the START button quickly. You will be presented with the RESIDENT EVIL 2 title screen. From the 2 buttons: TYPICAL, FAMILIAR, MODE, ARRANGE, MODE, SPECIAL, and OPTION, use the Left and Down directional buttons to highlight an option, then press the X or START button to select it.

### original mode

This is an authentic version of the original Resident Evil game. Select this option when you want to play a new mission.

You can choose Kentucky Road and Mountain Road levels.

### arrange mode

This is the enhanced version of the original Resident Evil game. Although the game is in essence the same as the European version, there are a few differences:

Automatic - Press the Aim Button (X) and your character will automatically spin around and aim directly at the nearest enemy.

Lighter - Different position of water levels and enemies.

Types - An 8 bit ribbon instead of 2 each time an ink ribbon is collected (used for saving).

The mission requires fewer items to kill.

The short sequence when you die is different.

When the game is completed the text says "S" instead of "F".

There are three difficulty settings: Easy, Normal, Hard. If you set the game to Hard, you will receive a machine gun with unlimited ammo. That means the game much easier but you will not be able to defeat any of the bosses by playing the game this way.

## option mode

Select **Option Mode** at the Option Menu, or enter this mode, changing quickly by pressing the **OPTION** button. If you enter this mode during a course or while the Status Screen appears, the game will return to the previous screen.

### key config

Adjust the On-Screen™ Controller configuration.

While adjusting a button configuration use the **UP** and **DOWN** directions to cycle through the available buttons, but not the button you would like to use.

### sound

Choose between **Normal** and **Stim** game sound, adjusting to the capabilities of your system. You can also adjust the **BGM** background music and all sound effects volume.

**MUSIC** Volume of the music during a course, a separate volume for the 3D ambient sound can be adjusted.

### monitor adjust

To adjust the brightness of your monitor and optimize picture quality. Colour bars will appear at the top of the screen, adjust the brightness of your monitor until the coloured bars under the dot line are black.

### vibration

When using a vibration pack played with your Dreamcast™ controller you can turn the vibration feature on and off here.

### extra note

When using the vibration pack with the Dreamcast™ Controller, always insert the vibration pack into Expansion Socket 2 of the controller.

## language

Top: 1. Some screenshots of the game play using a DualShock 3 controller. Left and Right.

Release Date: The game is only available for the Main Menu Options screen.

## special

As a special feature, the game includes a special additional feature that can be found in the Special menu of the main menu.

## gallery

Sketch - View pictures, design images and models from the game.

Movie - Allows you to watch the movie sequences of the game.

Other features and details will follow. As a special feature, a special feature of the game is completed.

## secrets

Additional game modes will be added to the game as the game is completed. The game to complete the game as a special feature and multiple secret with the local feature. The secret of the game is completed.

## saving

From time to time, you must place an ink ribbon into a typewriter. Ink ribbons can be found in various places throughout the game. When you find a ribbon, stand in front of the typewriter and press the B button. The ribbon will be added to your inventory to save your progress. Choose YES or NO. Choosing YES will tell you to a list of save positions available on the cartridge and transfer into that location. If you wish to select a different memory card than press the B button which will go to the next screen.

**NOTE:** You must be faced an ink ribbon cartridge you wish to load, so do your ink ribbons wisely.

When saving a file, you will know the file is being saved when the sound of the typewriter keys being tapped. Also, the save information will be typed on screen.

### PLEASE NOTE:

When saving game data make sure OFF for the game, the game remove the cartridge and re-inserted the controller.

## loading

If you have previously saved a game, highlight LOADING Game, press the left arrow and press the A button. A choice of three types of saved games will appear.

1. ORIGINAL. Be able use with the Original game.
2. Remastered. Be able use with the Remastered game.
3. CS. Be able use with the CS game.

Use the D-Pad to loading. Then press the A button to select the game type of your choice and press the B button. If you have only one left connected, this will be selected automatically. However, if more than one file is connected, this screen will be asked to select which memory card to load from. If save game files are found then they will be listed and can be selected with the D-Pad. If no files are found then the screen to make your selection. You can at any time press the B button to go back to the selection screen.

## starting the second mission

MISSION CONTROL is a computer interface for saving the game state that you unattended the first time, and play all the game through later. It helps you save the game the first time you play.

When you complete your mission at Loran or Orléans you will save your completed game just at the end of the game. To be that saved game state and re-load it on the opposite side, and play the scenario with the opposite character.

For example, when you play Loran mission and your complete it, save the completed game. Then load the Orléans mission disc. Choose **LOAD GAME** from the title screen and select the Loran completed game data you saved. You will now experience the second mission with Claire, but beginning on the opposite side of the battle plane.

The same goes for Orléans mission.

Claire is a great all rounder, and the best.

## status screen

When you press the B Button during game play, the Status Screen appears. This screen shows your characters' condition and the items you are carrying. Use the Directional Up and Down Buttons to highlight an item or function, then press the B Button to select the options.

### items

After highlighting the item you want to use, press the A Button. You then have 3 options in the accompanying window: **USE**, **DROP** or **COASTING**.

## use equip

To equip items, highlight USE and press the X button. Once you point your left joystick toward a highlighted EQUIP, you'll be equipped with that weapon. If you don't use a weapon, it will be unequipped. You can only equip one weapon at a time.

## check

This option allows you to examine an item or weapon you have equipped. Highlighting a weapon will cause the description to appear. Further information about the item.

## combine

Some items have a different effect when you combine them with other items, generally weapons. When you want to combine a clip or item for a gun, select the clip then select COMBINE from the combined window. Once the clip is placed together, following the cursor onto the gun you want to put the clip in.

By combining other items or weapons into yours.

## condition

On the Status Screen next to your character's map, there is a little icon called a CCC. The CCC shows the current condition of your character, and whether "THAT" or whatever the status of your character is. To return your character to better health, you must find herbs or a first aid kit. The data is also shown to you, for you.

## map file

Press the Z button. Functions you can perform from the Status Screen.

MAP: Select this option to view the items and areas you have already visited. This feature helps you keep track of where you need to go.

HP: As you explore, you will discover new weapons or other "things" that will automatically be listed in your character's notebook. Select this option to view the contents of messages that have already developed from these items.

## bm status

The following 10 words I received help I find a serious problem in the past of me and my  
you 100% if you have a problem and plugged into your Dreamcast™. Come join me and I  
will give you a copy of some crucial information. Your character's health, weight, and  
digestion will be in the air. It's easy.

## Item box

You will notice that your character can only carry a certain number of items that are stored in  
the Item box. You can only carry up to 10 items. You must have an item once you find it, but you can  
take more, for example, in order to carry more, for example you need it a certain amount, you can  
take other items as an Item Box.

There are located in strategic places, and you must go there really because they are located in  
open. Stand in front of the Item Box and press the X Button. The Item Box will then appear.  
You can see the items, but you can't see them in the box. To place an item in the box, use the  
Directional Pad to highlight the item, then press the X Button. Now select a slot that reads  
"NO item" and press the X Button. The item has now been placed into the box. Repeat this  
process for all items that read "NO item" and then the Item Box will disappear.

To exchange an item, place the correct item in the slot you want to exchange and press the X  
Button. Now highlight the item in the slot you want to exchange and press the X Button. The  
item has now been exchanged.

To take an item out of the box, you must have an empty slot available to carry the item. Select  
the empty slot and then press the X Button to move the item to the slot. Highlight the item  
you want to take out of the box and press the X Button.

## Ranking

When you complete the mission, you will receive a rank based on how well you do. The rankings  
are S (Excellent), A, B, C, and D. This is determined by a number of factors including total time  
spent playing and the number of lives you have during the game.

Try to increase your ranking, and what knows... good things may happen.

# raccoon city's only hope

## LEON S. KENNEDY

Leon is an absolute middle-aged. He bears with the need to protect and to serve, and fits in a credit way an eye-opening experience. Wholeheartedly and bravely, Leon is certainly not at home in his surroundings would suggest. He is highly qualified for his job with the *Kryger's Police*.

## CLAIRE REDFIELD

Claire is a 21-year-old, relatively modern woman. While she can be a bit of a tomboy at times, she is somewhat wild, self-confident and somewhat. She is typically the first person to try something, many others would not.

## ADA WONG

Looks sturdy in uptight, sophisticated manner, and quite introverted yet, in the same time, a professional and shifty investigator. She can also come across as condescending, and has a tendency to talk down to those she deems inferior to herself.

## SHERRY BIRKIN

A barely well known and 13-year-old, Sherry is quite popular for her age. She is very shy and when she speaks she tends to stammer and almost has the feeling of being lost. Sherry's parents are too worried up in their quest to help her control her "pools of their chaos."

## can't survive? try this:

### **LISTEN**

You've seen the zombies slither in a more-than-thought-funny way on our screen. Listen carefully as you explore to help you prepare for sudden attacks.

### **USE WEAPONS EFFECTIVELY**

Weapon effectiveness varies with range and target. Determine the best weapon for the situation, taking into consideration ammo availability. This is the single most important factor to survival.

### **KNOW YOUR ENEMIES**

Each enemy is uniquely shaped, attacks differently, and moves differently. Get to know your enemies (at least their weak points). This can mean pay a more strategic survival.

### **TRY ALL OPTIONS, SEARCH ALL AREAS**

Surv! Come across a new room with nothing to do? Look elsewhere to go! Try using, more, pushing, climbing, investigating, etc. With the perimeter of rooms and areas to find more medicine and other important items. Check dead corners for items.

### **AFTER ALL THIS - STILL STUCK**

Turn to page 15 for the Resident Evil™ 2 hint list.
